CALL FOR BOS PRICING (USE ITEM #709)

E. DELIVERY

Building will arrive fully constructed at the customer's site on a truck and trailer similar to the picture. Our delivery crew will level the building with blocks provided by the customer.

If the customer has a tight spot and is concerned about delivery we have a machine called a "mule"

It's used for moving the building through the customers yard with out the additional bulk and size of the truck and when access is limited.
