## DELIVERY

Building will arrive fully constructed at the customer's site on a truck and trailer similar to the picture. Our professional delivery crew will level the building with a mixture of leveling materials. \*Please

Allow 3-4 weeks for delivery (weather pending) from the time building was ordered.

If the customer has a tight spot and is concerned about delivery we have a machine called a "mule". It's used for moving the building through the customers yard with out the additional bulk and size of the truck and

access is limited. **Built-on-Site** is also available for a \$575 up-charge if the building is undeliverable.
